

Chittenden County Stream Team
2016 Water Quality Sampling Training Agenda

Date and Time: ***Tuesday, June 28th from 5:30 - 7:00 pm***

Location: ***Potash Brook at [10 Farrell Street, So Burlington, VT 05403](#)***

5:30 - 5:45 pm - Welcome and Introductions (Refreshments provided)

5:45 - 6:00 pm - Program Background, Site Descriptions, Chemical Parameter Descriptions

6:00 - 6:15 - Description of hand-outs/ Pick-up and Drop-off Protocol

6:15 - 6:45 - Sampling Procedure

6:45 - 6:50 - Field Safety

6:50 - 7:00 - Wrap-up and Questions

The training will be held outdoors at a flat, sheltered site next to Potash Brook. I will have a pop-up tent and we will be under trees for the majority of the time, so light rain shouldn't be an issue. In case of heavy rain/thunderstorms, we will have a rain date of **Thursday, June 30th**. *Please dress for the weather and bring your calendars!* We will go through the site sampling calendar and if there is a day you absolutely can not do, we will see if another volunteer is willing to step in.

Directions:

We will meet in the parking lot adjacent to the 10 Farrell Street Building (Kids City, Klingers, Dominos). If you are coming from Swift Street, turn right onto Farrell Street and take your second left into the parking lot driveway on the north side of the building. If coming south on Farrell St. follow nearly to the end and turn left into the parking lot across from Dept of Corrections building (you will see a large Kids City sign out front).
