

WNRCD

- Encompasses more than 5 drainage basins: Winooski, LaPlatte, Lamoille, White River and parts of Lake Champlain.
- Encompasses all of Chittenden, and Washington Counties and parts of Orange.
- Partners with Federal, State and local agencies, non-profits, watershed groups, businesses, Interest groups, residents and towns to achieve the protection of our natural resources.

Conservation Districts

- Are a subdivision of state government.
- Are not a regulatory/ enforcement agency.
- Provide resources, technical support and funding .
- Governed by an elected Board of Supervisors comprised of residents of the District.
- Receives funds from donations, foundations, grants, fundraisers, service fees and state appropriations.

Resources

Visit the WNRCD website for:

- Information on projects & initiatives.
- Visit the Your Resources section featuring links, information, tools and more, all focused on natural resource related topics.
- Download the new educational factsheets published by the WNRCD.
- Learn about upcoming events, workshops, the tree and trout sale and more.
- Learn about the Watershed Restoration FUND and how your donation will help protect local natural resources.
- Learn how you can volunteer.

This brochure was funded in-part by contributions from the Vermont Natural Resources Conservation Council in partnership with the NRCS/USDA, an agreement by the Great Lakes Fishery Commission to the New England Interstate Water Pollution Commission in partnership with the Lake Champlain Basin Program and proceeds from the annual WNRCD tree and trout sales and donations to our Watershed Restoration FUND.

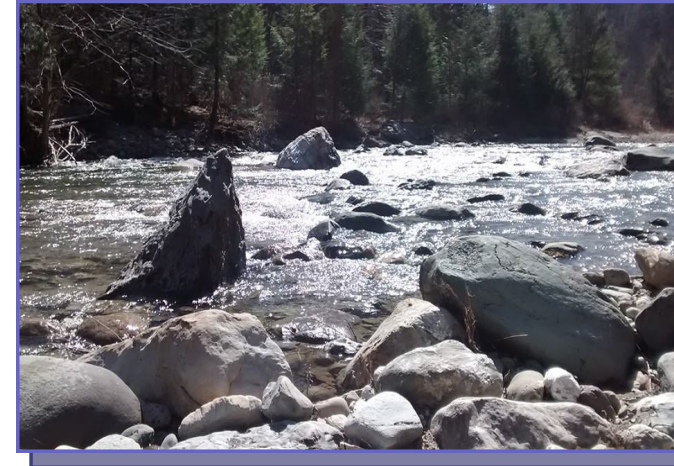

Thank you to our sponsors !

Winooski Natural Resources Conservation District

“Connecting people to a sustainable landscape”

Ensuring the wise use,
protection and enhancement of
our Natural Resources for over
75 years

The WNRCD is involved in a broad range of natural resource conservation projects. Current projects fall within our four core program areas:

- Agricultural Assistance
- Urban Conservation
- Watershed Stewardship and
- Forestland Enhancement

Changing Landscape

As new concerns are identified, new programs and initiatives are created.

New and emerging program areas include:

- Invasive species
- Sodium Chloride
- Wetland protection
- Lake/Pond shoreland protection
- Climate change
- Waste water

For more information please visit:
www.winooskinrcd.org
 Or email:
info@winooskinrcd.org

Agricultural Assistance

The WNRCD is committed to providing technical, financial and educational resources to the agricultural community that they need to be exceptional stewards of the Vermont landscape.

Programs & Initiatives

- Nutrient Management Plans
- Aerator Rental Program
- Targeted BMP education

Watershed Stewardship

The WNRCD seeks to improve and protect Vermont's network of rivers, wetlands, ponds and lakes. We take a whole watershed approach to protection, understanding that what takes place upland will impact our water resources.

Programs & Initiatives

- Riparian buffer installations
- Shoreland erosion control
- Aquatic organism passage
- Water Quality Monitoring
- Invasive species identification & management
- Outreach and education

Urban Conservation

The WNRCD works with partners to implement stormwater management practices, providing technical, financial and educational resources.

Programs & Initiatives

- In School education
- Residential project identification and implementation
- Water quality monitoring
- Municipal and School project identification and implementation
- Outreach and education

Forestland Enhancement

The WNRCD works to ensure forest land resources retain their economic, social and ecological benefits.

Programs & Initiatives

- Portable skidder bridge program
- Urban tree inventory
- Tree management plans
- Habitat restoration
