THIN VENEER STONE

Most of our full bed thickness veneer can be purchased in a thin variety, for installation in areas where a traditional thickness veneer can't be used. All material is ¾" to 1¼" thickness on average, ideal for covering over brick, block, concrete, drywall and wood applications. Other colors and stone types available upon request, such as square and rectangular, ledge, and Ashlar patterns.

FLATS Use this material for the body of area you are covering.
