

Winooski NRCD Field Intern 2021 Questionnaire

1. Applicant Name
2. A significant responsibility of this position will involve talking with landowners in our District to encourage them to allow tree planting projects on their properties. What experiences have you had that may help you succeed in this task? Describe your experience talking with members of the general public to "pitch" ideas or share opportunities.
3. Describe any experience you have working with farmers.
4. Describe your experience completing fieldwork including, but not limited to, scientific research, soil sampling and water sampling.
5. Do you plan to use this internship to fulfill credit requirements for your degree? If so, what are the requirements of your college or university? We will do our best to work with you so that the internship meets all of the requirements for credit.
6. Please describe your availability throughout the summer. If you have obligations like summer classes or a part-time job we can work with you to set a reasonable schedule. The typical weekly intern schedule involves three days of work. Occasionally field work opportunities will fall outside of this schedule, but we try to stick to this framework:
 - Monday:** 1 hour of training, then up to 5 hours of office or independent work
 - Tuesday:** First full day of field work
 - Wednesday:** Second full day of field work
7. We may be able to allot 10-20 hours of the internship to a project of special interest to you. Are there any areas of special interest that you would like to explore? Examples include communications, graphic design, web design, mapping, outreach and education, legislation, etc. This project would be secondary to the core duties of the internship which are described in the position description.
